

# THE EPISCOPAL CATHEDRAL SCHOOL

## VISION

At The Episcopal Cathedral School we believe in educating the whole child (intellectual, physical, emotional, social, spiritual and aesthetic) in a supportive, student-centered school community that values the rigors and joy of active learning and the dignity, self-worth, and potential of each individual.

## MISSION STATEMENT

The Episcopal Cathedral School strives to foster these guiding principles: character built on personal integrity, compassion, and respect; disciplined scholarship grounded in intellectual curiosity, independent thought, and effective communication; and the development of courageous, civil and responsible leadership.

## OUR MISSION IS:

To offer our students the finest preparation for college; to inspire in our students a lifelong love for learning; to invite students to deepen their relationship with God; to encourage each student's social, cultural and physical development; to challenge our students to become leaders, living as human beings of conscience, compassion and action.
